PROFESSIONAL SUMMARY

CCNA-certified Network Engineer with 2+ years of progressive ISP infrastructure experience, now actively transitioning into Cybersecurity. Proven track record managing 40+ OLT and switching devices across LCO networks with 99%+ uptime. Google Cybersecurity Certificate holder (95% score) and AWS Certified Solutions Architect - Associate, with hands-on expertise in VLAN segmentation, Q-in-Q tunneling, STP/RSTP loop prevention, and proactive monitoring using PRTG Network Monitor. Experienced with Linux, AWS fundamentals, and network security principles — ready to grow into a security-focused engineering role.

TECHNICAL SKILLS

Network Infrastructure: Routing & Switching, VLAN Segmentation, Q-in-Q (802.1ad), Loop Prevention (STP, RSTP, BPDU Guard), ISP Deployment

Core Protocols & Services: TCP/IP, DHCP, DNS, NAT, IPv4/IPv6

Hardware & Devices: OLTs (Netlink, Syrotech, DBC, Sharp, Dasan), Switches (Huawei, Cisco, DBC), Modems, Access Points

Systems & Monitoring: PRTG Network Monitor, Red Hat Linux, Wireshark, Packet Tracer, Bash, PowerShell

Security & Cloud: Risk Assessment, Cybersecurity Principles, AWS Solutions Architecture, AWS Fundamentals — Google Cybersecurity Certificate (95%), AWS Certified Solutions Architect - Associate

PROFESSIONAL EXPERIENCE

Network Support Engineer, Kerala Vision

12/2025 – Present

Kalamassery, Kochi

- Configured and managed 30+ OLT devices (Netlink, Syrotech, DBC, Sharp, Dasan), maintaining consistent 99% network uptime across LCO networks.
- Deployed access and ring switches (Huawei, Cisco, DBC) with STP, RSTP, and BPDU Guard — reduced loop issues by 30% and improved overall stability.
- Implemented VLAN segmentation and Q-in-Q tunneling (IEEE 802.1ad) for ISP customer networks, boosting service efficiency by 20%.
- Troubleshoot complex VLAN conflicts and link failures via deep BPDU analysis, decreasing link downtime by 25%.
- Proactively monitored network health using PRTG Network Monitor, accelerating issue detection and reducing resolution times by 30%.

Assistant Network Engineer, SmartNet Kochi

01/2025 – 12/2025

Ernakulam

- Configured and managed 10+ OLTs, switches, and access points for ISP deployment, sustaining 99.9% network uptime.
- Diagnosed complex performance issues using TCP/IP analysis and Linux tools, reducing network downtime by 30%.
- Executed VLAN implementations to isolate traffic, enhancing network security and reliability.
- Handled end-to-end client setups including modem/router configurations and Ethernet cabling.

Junior Network Engineer, Soften Technologies

07/2024 – 12/2024

Kadavanthara

- Managed CLI and GUI environments of enterprise-grade routers and switches to monitor system health.
- Collaborated with senior engineers to stage network deployments, configuring IP addresses and verifying port connectivity.
- Applied core TCP/IP principles in real-world scenarios, executing VLAN implementations via CLI.

EDUCATION & CERTIFICATIONS

Cisco Certified Network Associate (CCNA), Cisco

09/2024 – 09/2027

AWS Certified Solutions Architect - Associate, Amazon Web Services

07/2026 – 07/2029

B.Sc. Electronics, IHRD College of Applied Science, Chelakkara

06/2021 – 04/2024

Google Cybersecurity Certificate, Google

12/2024

Score: 95%

Advanced Networking & Systems Diplomas [AWS, Red Hat Linux, Cybersecurity], Soften Technologies 2023 – 2024
